Dear participants and colleagues,

On behalf of the organizing committee, it is a matter of great pleasure for us to invite you to participate in the 8th Regional Conference on Chemical Engineering (RCChE-2015) to be held from November 29 - December 1, 2015 in Hanoi, Vietnam.

The Regional Conference on Chemical Engineering is an annual program to share the most updated technology and research of regional common issues as well as to publicize research work of AUN/SEED-Net members. With similar purposes, the Vietnam National Chemical Congress (VNCC) and National Conference on Chemical Engineering (VNCCE) organized every two years are considered the most important events for Vietnamese chemical and chemical engineering associations. These conferences have given various opportunities for participants to discuss future collaborations and activities related to chemistry and chemical engineering fields.

This year, Hanoi University of Science and Technology (HUST) is honoured with the mission of being the host for all three of the 8th RCChE, the 7th VNCC and the 2nd VNCCE. To extend more collaboration opportunities for participants, these conferences will focus on the latest developments in:

1. Chemical Process Engineering (CPE)
2. U-I Collaboration in Chemical Engineering and Mineral Processing (ICE)
3. Catalysis and Adsorption (CAT)
4. Bio-fuels and energy (ENG)
5. Organic Chemistry and Natural Products (NAT)
6. Ceramic, Advanced Materials and Nanotechnology (MAT)
7. Polymer Materials and Processing (PLM)
8. Environmental Engineering (ENV)
9. Food and Biotechnology (BIO)

With the enriching insights from invited speakers who will come from AUN/SEED-Net's Japanese Supporting Universities, Vietnamese Universities, Institutes and Industries, as well as invited International Institutions, we believe that the 8th RCChE, the 7th VNCC and the 2nd VNCCE

Invitation

will open more channels for productive collaborations among the countries in the fields of chemistry and chemical engineering.

The RCChE-2015 will take place on November 29 - December 1, 2015 at Ta Quang Buu Library Building, located at Hanoi University of Science and Technology, which is about 30 km from Noi Bai International Airport. This is anticipated to be an ideal place for accommodation, meeting, discussion and leisure of International researchers during the RCChE-2015 period. We hope you will take up the opportunities to enjoy Hanoi and its surrounding areas. We look forward to welcoming you at the RCChE-2015 in November-December 2015.

Pham Hoang LUONG, Local Chair

On behalf of RCChE 2015 Organizing Committee Vice President of HUST Hanoi, Vietnam E mail: rcche2015@hust.edu.vn
